COMPACT, VERSATILE LIGHT FOR WET OR DRY APPLICATIONS

BRIGHT THINGS COME IN SMALL PACKAGES.

As a wet and dry landscape lighting solution certified for use within 10 feet of the waterline, ColorLogic® 80 LED lights are the perfect choice for just about anywhere around—or in—the water. Their niche-free design makes them slimmer and brighter than any other lights available, giving pool owners unprecedented power to put their creative brilliance on display.

KEY FEATURES

» **Discreet ½" design** is ideal for multi-light layouts that require precise placement

» **Wet & dry UL-listed** for use within a 10-foot radius of the pool

» **Control up to 5 lights** from one Junction Box LED Driver (required), saving on materials and cost

» **Versatile application** illuminates steps, decking, water features, waterfalls, landscapes, sun shelves, sheer cascades, bubblers, up-lighting and more

» **Dynamic color platform** features 10 fixed colors and 7 color-changing light shows

» **OmniDirect Mode™ compatible** for even more color and control options

SMALL IN SIZE, BIG ON BRIGHTNESS

Even though these ½" lights are the smallest on the market, they still pack a huge punch—with industry-leading lumen output for a dramatic lighting effect.
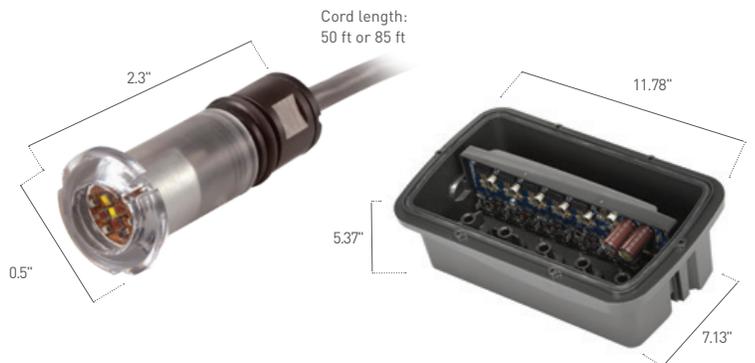

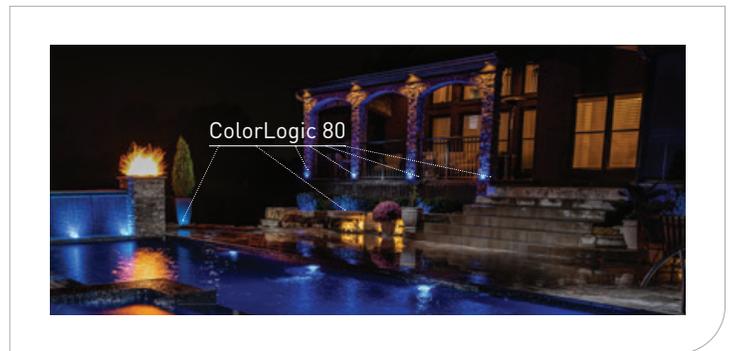

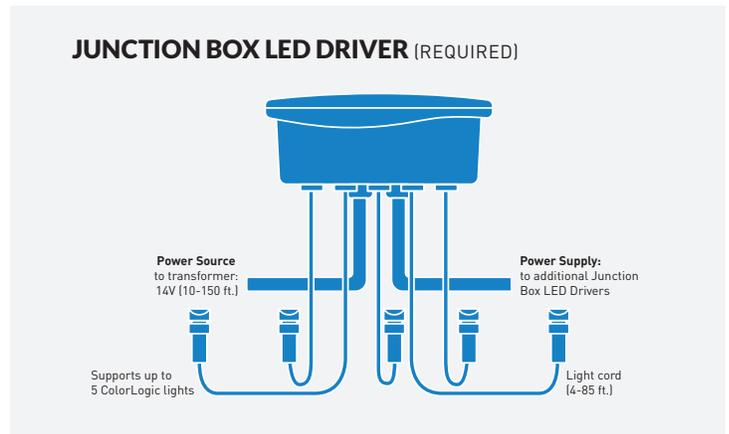

EASY, NICHE-FREE INSTALL

Designed to mount directly into ½" PVC conduit without the need for complicated bonding or grounding, ColorLogic 80 lights are perfect for discreetly illuminating small spaces.

5 JUNCTION BOX LED DRIVER

It's easy to connect and control up to 5 ColorLogic 80 lights with just one Junction Box LED Driver (required), greatly reducing the need for costly conduit runs.

JUNCTION BOX LED DRIVER (REQUIRED)
